Better than the vaccine?

Hope for the future

I am hoping that the vaccines will provide the answer to this pandemic and I am sure you are too.

It has affected all of our lives - NO EXCEPTIONS, whether it be the loss of loved ones, or loss of face to face relationships, or other activities.

I don't really understand how the virus works, but I have seen the effects of it and I am afraid of what could happen to me if I get the virus.

We hope the vaccine stops the virus spreading, and all are kept safe from this misery.

But wouldn't it be great if there was the hope that even death can be ended?

There is hope

The good news is that there is hope for the future and not just for solving the problem of this virus, but the bigger problem of death.

How is this possible you ask?

God who made mankind perfectly has also given us free choice, but everyone has chosen to not follow God and His way. The result is that there are things like destructive viruses and everyone dies.

But God's plan was that through one man He could save each person.

For God so loved the world that he gave his one and only Son, that whoever believes in him shall not perish but have eternal life.

John 3:16

Is there a vaccine for death or even better, can it be defeated?

So how do I get 'eternal life' and 'not perish'?

Already got the disease

We are all warned to keep our distance, wash our hands, don't touch our face, but we all already have the bigger problem. We know that although the virus is so small, its consequences are so big. In a similar way we think that the failures and wrong things we do are so small –but the consequences are huge. God says they are sin and...

Therefore, just as sin entered the world through one man, and death through sin, and in this way death came to all people, because all sinned.

Romans 5:12

The virus is passed on by person to person contact but the problem that results in my death comes from within me and I can't overcome it or its causes.

Yes, I know I have the problem, but how can I be saved from it?

Who provides the answer?

The answer for the virus is a vaccine, developed by scientists. Our fundamental problem needs an answer provided by someone who could die and rise again demonstrating power over even the consequences of my sin.

Here is a trustworthy saying that deserves full acceptance: Christ Jesus came into the world to save sinners.

1 Timothy 1:15

You see, at just the right time, when we were still powerless, Christ died for the ungodly.

Romans 5:6

But God raised him from the dead, freeing him from the agony of death, because it was impossible for death to keep its hold on him.

Act 2:24

So there is an answer, but when will it be my turn for this most important solution?

A scheduled appointment

We get tired of the restrictions and would like to do our own thing but realize that they are for our own good. I am waiting for the letter saying to go and get the vaccine. God has already provided the answer to the bigger problem. This most important salvation can be yours when you repent of the way you are living and accept it. For...

Salvation is found in no one else, for there is no other name under heaven given to mankind by which we must be saved.

Acts 4:12

Ask Him to take away your sin and give you His eternal life and He will. He does it perfectly for...

If you declare with your mouth, "Jesus is Lord," and believe in your heart that God raised him from the dead, you will be saved.

Romans 10:9

That would change your life forever. Interested? –Then respond to God now.

Don't miss your answer

Many who have recovered from the virus see life in a new way, with gratefulness and their lifestyle is changed.

Even more so, getting God's salvation and new life is a complete change in lifestyle. For...

... what does the LORD your God ask of you but... to walk in obedience to him, to love him, to serve the LORD your God with all your heart and with all your soul, and to observe the LORD's commands.

Deuteronomy 10:12-13

The danger is that salvation is only available in this life, for

...how shall we escape if we ignore so great a salvation?

Hebrews 2:3

The cost of passing on the virus is counted in millions of lives lost, so the vaccine will be the cause for millions of lives being saved. Each life is important.

Your life matters to God, does it matter to you?

Can you say 'I have His salvation'?
